

BR/BD 45/40 C

Walk-Behind Scrubber Drier.

The BR/BD 45/40 replaces the very successful BR/BD 530 series of scrubber driers. A new design enables ease of use, better operator comfort, longer operation times, and comes with innovative cleaning technology. It is available with a roller (BR) or disc (BD) brush. The tank in tank system for fresh and waste water enhances machine stability and reduces the dimensions of the unit. The BR/BD 45/40 provides an innovative simple way of cleaning with **EASY (Ergonomic Application SYstem)** and is also available with the **DOSE (Demand Orientated Supply of dEtergent)** system. The BD version has a new unique patented brush change system making it even simpler to change brushes. It is ideal for contract cleaners, the retail and food industry, healthcare, small manufacturing and shopping areas.

- **EASY (Ergonomic Application SYstem)**

Select the appropriate programme with a single knob self explanatory symbol system.

- **DOSE (Demand Orientated Supply of dEtergent) - (Optional)**

Detergent metering with DOSE. Detergent can be added to the brush head as required. It is also possible to vary concentration during operation.

- Fresh water tank with water filler indicator prevents overfilling.
- Transport wheel for easy manoeuvrability.
- Complete with integral on board charger to prevent water ingress.
- Available in gel or wet battery version.
- Scrubbing and drying in a pass (BR Version).
- Roller or disc brush available.
