Details

Description

The KM 80 W P can be used throughout the whole year thanks to its multi-functional capabilities. The machine's front-mounted roller brush gives excellent outdoor sweeping performance and clears light snow. The optional dirt hopper collects all sweepings easily, and the optional snow shield helps to move deeper snow. The compact design and the folding, ergonomic push handle make the KM 80 easy to handle and store, and its reliable Honda engine with traction drive provide great performance even in slippery conditions.

Features & Benefits

Height-adjustable roller brush

For adjusting when worn or for adapting to a particular surface.

Easy regulation of the brush pressure.

Tilting of the roller brush

Adjustment clip with locking for a fixed tilted position left and right.

Rubber scrubber protection prevents damage to the surroundings.

Tilting also possible with the optional snow blade.

Snow blade for use in winter

Folding spring mechanism for optimal shock absorption.

Rubber strip which can be used on both sides.

With gliding skids with four settings.

Waste container

The waste container can be easily adjusted when the roller brush is worn out.

For direct dirt pick-up.
